The MEMOS programme in English is based on four face-to-face education and training sessions. Each of the first three sessions follows the same ten day format from Sunday to Wednesday (one week later).

Each module is led by MEMOS Professors and also involves participant presentations, discussions, activities and both group and individual assessment tasks.

While all teaching modules are delivered in discrete blocks, the research methods module is taught on Friday and Saturday of each of the first three sessions, together with lectures and coaching with tutors, and presentations by participants to demonstrate progress on their individual research projects.

The research module culminates in the fourth session which is dedicated to the defense of the projects in front of a jury and each participant delivering a public presentation. This is followed by a graduation ceremony.

All sessions (and modules) are supported by lecture notes and other reading materials.

For more information: http://memos.degree

**Deadline for candidatures**

Candidatures need to be submitted prior to June 15, 2019, as requested on the candidature form: http://memos.degree/en-candidature-form/

---

1 All participants must arrive on the Sunday and leave on the Wednesday (ie be present for the full 10 days). Lectures, group work and other learning activities are held from Monday to Thursday (during the first week) and from Sunday (afternoon) to Tuesday, all day (9 am to 6 pm) and frequently in the evenings. During the teaching periods participants are requested to refrain from accessing their emails, sms, and any other electronic devices during class time. If you have urgent work to do please do so outside of the classroom and avoid distracting people around you. Work and social related activities should be attended to outside of class time.

All MEMOS XXIII participants are required to conduct an individual project during their study year (September 2019 - September 2020). In principle, their project deals with the management of, and performance improvement in the participant’s sport organization (or one to which they have easy access). The project topic must be discussed with the sport organization and specified in the candidature form. A tutor is assigned to each participant who coaches him or her during two days of sessions 1 to 3. Between the teaching blocks, participants and tutors maintain close contact by e-mail and telephone. The project topic should be fully confirmed at the end of the first session. The final version of the project report must be sent one month before the:

Project defense in Lausanne

TUE 08 September (arrival) – SAT 12 September (departure) 2020
